Spencer,

Congratulations. I've printed and signed the electronic copy you sent me and attached it to this email. So, today is the official date of unification.

For the record, however, I need you to mail me two copies of the entire document with your original signature on each of the four signature pages. I will then sign both copies and return the copy with the community signatures to you and keep the second copy for MKP USA records.

Thanks

Robert G. Powell, Chairman
